

The Third Russian-Japanese Seminar on Technetium

Extended Synopsis

Dubna, Russia

June 23 – July 01, 2002

Scientific Topics

- Analytical and environmental chemistry of technetium
- Co-ordination chemistry of technetium and rhenium
- Radiopharmaceuticals of technetium and rhenium
- Technetium in reprocessing of spent nuclear fuel
- Other aspects of physics and chemistry of technetium and rhenium

Hosted by

Joint Institute for Nuclear Research

Co-organized by

Institute of Physical Chemistry, RAS
State Scientific Center – Institute of Biophysics
V.I. Vernadsky Institute of Geochemistry and Analytical Chemistry, RAS
Interdepartmental Scientific Council for Radiochemistry
D. Mendeleev University of Chemical Technology
State Scientific Center - A.A. Bochvar All-Russian Scientific Research Institute
of Inorganic Materials
State Scientific Center – Institute of Physics and Power Engineering
Moscow State University
Russian Society of Nuclear Medicine
